

NarOA's final evaluation – May 2017

1) To what extent do you like math? 23 responses

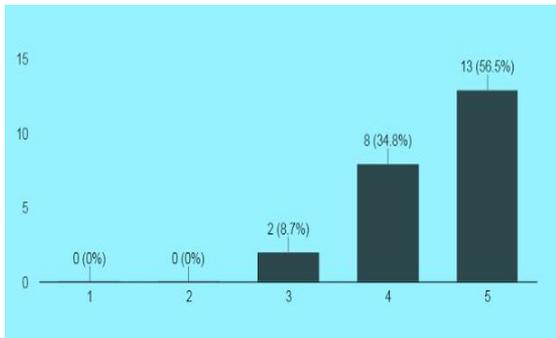

2) How engaged are you in learning math? 22 responses

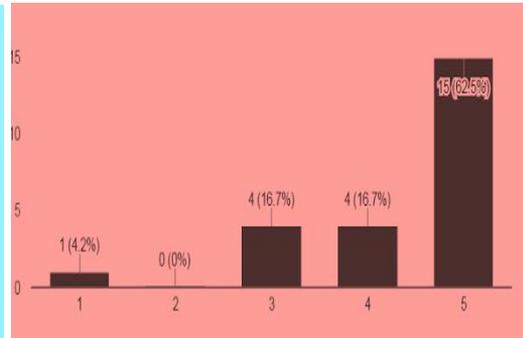

February (blue)

May (pink)

3) How engaged is the teacher in teaching math? 23 responses

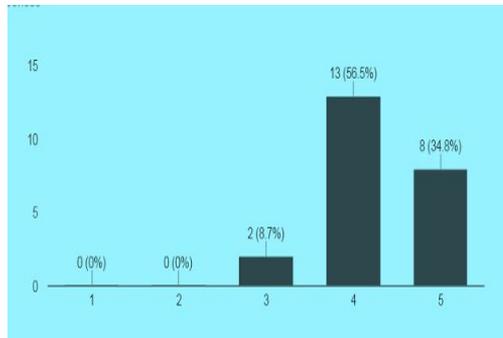

February (blue)

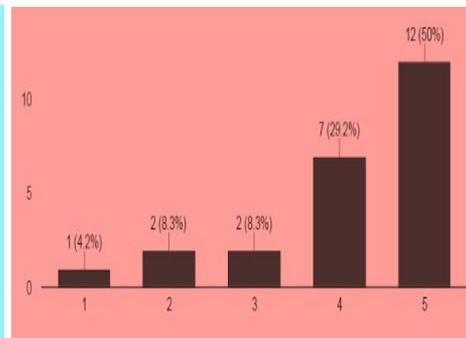

May (pink)

4) To what extent do you think the teacher care about if you are learning math? 23 responses

February (blue)

May (pink)

5) List at least three things that make you learn math.

### February

My effort and motivation because it is a different subject, classes are more dynamic than the rest of the subjects. It is no needed to study by heart.

Cooperative groups, daily life examples.

My motivation, the teacher we have.

Examples, study, watch videos...

Pay attention, ask and participate.

Work in groups, use the computers.

More practice, the teacher, my efforts.

Work in pairs or in groups, work at home, watch videos, study at home.

### May

## Thinking

Work in groups, when classes are more dynamic than usual and when the teacher explains math in a more active way.

Repeat things, exercises or procedures more than once.

Practice every day what we have learnt in class.

Exercises in class. The teacher's effort so as to explain. Personal work and study.

Work in pairs, groups and going out to the blackboard.

Exercises, work in groups, going out to the blackboard in order to correct exercises.

Pay attention during the class, study and do exercises.

Send homework, explanations and pay attention.

Pay attention, work with determination, practice with exercises.

My desire to learn, my personal tutoring, my teacher's effort so as to help me learning math despite my difficulties.

Do exercises and correct them, work in groups.

The class' atmosphere is different comparing with the rest of the classes. The dynamics of the class, the teacher is very devoted to make her students learn math.

Take part in the classes, do exercises in class.

## 6) In which situation (if any) do you lose concentration in math lessons?

### February

When sb else or my mate talks to me during the class.

When I don't understand what we are doing.

When I turn nervous, for example in the exams.

Never

When explanations are very long.

When I don't understand and I do not ask.

### May

When there is a lot of noise.

When I work alone, because i get bored.

When people start talking or don't pay attention to the teacher.

When it is hot r I have not slept well.

When I do not understand.

In the first lesson of the day.

## 7) What do you do to be prepared for learning math?

### February

Pay attention.

Think about my future.

Follow the teacher's explanations.

Have a home tutoring for helping me in math.

Do a lot of efforts and exercises.

Do the homework everyday. Hacer los ejercicios todos los dias

## May

Have a home tutoring for helping me in Math.

Study hard.

Do the homework every day and ask all the questions I have.

Pay attention.

Do exercises.

Pay attention and study at home.
