Interesting to know that there are so many tools you can use

2018-01-21 11:12 [Visa svar](#)

The lecture was usefull, but i knew the most of tecnique, with exsept the Padlet and symbaloo

2018-01-19 13:12 [Visa svar](#)

She was very kind and prepared on the matter and I would be pleased to work and specialize on new technologies too.

2018-01-19 13:09 [Visa svar](#)

This session encouraged me to use this kind of tools more to increase my students' motivation and enthusiasm about their learning

always interesting to see other class experiences

2018-01-21 11:12 [Visa svar](#)

The teacher of basque was very frinedly, but the lesson was too much noise. The teacher of spanish was clear, using metodologies similar to these that I used in my class.

Good variety of activities. Excellent guiding at Guggenheim:!)! Really nice organization and hosting from all the Basque hosts and all coordinators. We used dynamic group ideas in our project.

2018-01-21 11:12 [Visa svar](#)

It has been really great. Well planned by the organizers who have also been truly encouraging. The group was extremely nice to work and hag out with. Social activities like dickers and the visit to the Guggenheim are essentiel, I think, in creating a good atmosphere which we need in order to work well together. Location of hotel, programme, everything has been very good. In my opinion, this meeting has been a great success

**How many colleagues and students will be directly or indirectly involved in the project product, approximately, at your school? Please try to estimate.**

- Svarade: 8

In a short term and directly involved is one class (26 pupils) that will be evaluated within the project, but some ideas might be tried also in other groups (another 15 students). Indirectly many more students and about 12 other teachers can be involved.

2018-01-21 11:12 [Visa svar](#)

About 20 students and 5 colleagues.

2018-01-19 13:12 [Visa svar](#)

2 colleagues at least and 35 students.

2018-01-19 13:09 [Visa svar](#)

At the moment I am not working as part of the Spanish or Basque departments although I have in other academic years. So I hope to be able to spread it as much as possible whenever I have the opportunity again.

2018-01-19 13:09 [Visa svar](#)

There will be 30 students involved in basque language.
